Making things simple

Tailor your cover

Islands Health Adapt offers you the flexibility to build a plan that suits your business and employees. You can even choose to provide your teams with different levels of cover.

Decide whether to add an excess

You can choose to add an excess to your plan. This means, when making a claim, that your employees would need to pay a set amount per person, per policy year.

Adding an excess to your plan will help to reduce your premiums.

You can choose from:

- £100
- £200
- £500
- £1,000
- £2,000

Select an underwriting option

This will determine whether your employees can claim for any conditions or symptoms they might have had before they joined us.

We offer the following underwriting styles:

- **Full Medical Underwriting**
- **Continuing Medical Exclusions**
- **Medical History Disregarded**
- **Specified Moratorium (522)**

Managing payments

To make it as easy as possible for your business, you can choose how often you'd like to pay your premiums:

- monthly
- quarterly
- annually

If you choose to pay annually, we'll give you a 5% *discount* on your premiums.

Build your plan

Choose from a selection of modules to provide your employees with the cover they need while making sure you get value for money.
